

Yurii Borys

Middle Front-End Developer (JS\REACT)

I am a Middle Front-End Developer *with over 2 Year of experience.*

I'm an active, communicable, adaptive, friendly, balanced, cooperative, curious, determined, honest, kind, and quick learner. I like systematically absorbing new material and solving non-standard problems. In my free time I do sports (swimming, fitness, boxing), fishing, hiking, driving.

Work History

2022-12 –
2023-03

Front-End Developer

Itex Agency., Lviv – Develp web appliactions – NFT games, marketplace, pictures

- Designed dynamic and multi-browser compatible pages using HTML5, CSS3, FLEX, GRID, SASS, JavaScript, ECMA Script 6, React (React Function Components), NEXT JS.
- Planned website development, converting mockups(Figma) into usable web presence.
- Created reusable styled components using CSS3 preprocessors like SCSS.
- Created React hooks - fetch, input, loader, validation etc.
- Integrated RESTfull services(API's). Used axios library and RTK Query, JSON for data transfer between front-end and back-end.
- Estimated work hours and tracked progress using Scrum methodology.
- Used Firebase like a database.
- Tested rest endpoints using Postman.
- Managed global state (Global context) by using Redux.

2021-05 -
2022-11
